

CSIR - Indian Institute of Chemical Biology

CSIR-IICB Ph.D. Programme 2017 - 18

Entrance Interview for CSIR-UGC (NET)/ ICMR/DBT- JRF/DST
INSPIRE qualified candidates

CSIR-IICB offers exciting opportunities for doctoral work in trans- and interdisciplinary areas of chemical and biological sciences in an integrative way. Under following broad divisions, there are ample scopes to work in frontline areas, amongst others: Cancer Biology & Inflammatory Disorder, Cell Biology & Physiology, Organic & Medicinal Chemistry, Infectious Diseases and Immunology, Molecular Genetics, Structural Biology & Bioinformatics.

The PhD programme of CSIR-IICB starts with a compulsory twelve credits course work.

Details notification/Advertisement for the next **Entrance Interview** for eligible CSIR-UGC (NET) / ICMR/DBT - qualified candidates and also for INSPIRE (DST) fellows to admit the JRFs in the frontier areas of Biological, Chemical and interdisciplinary sciences will be available in career@iicb.res.in.
