

## **Program Schedule**

## Venue: Dr. J. C. Ray Auditorium, CSIR-IICB

	Day-1, December 03, 2025 (Wednesday)		
08:30-09:30	Registration		
	Inaugural Session		
09:30-09:40	Welcome Address, Introduction of Guests, Lighting of the Lamp		
09:40-09:50	Opening Remarks: <b>Prof. Vibha Tandon</b> , Director, CSIR-IICB		
09:50-10:00	About SFRR: Dr. Soumyakanti Adhikari, President, SFRR-India		
10:00-10:10	Special Address: Dr. Santosh Sandur, Vice President, SFRR-India		
10:10-10:20	Address by Guest of Honour: <b>Prof. Gobardhan Das</b> , Director, IISER		
	Bhopal		
10:20-10:30	Address by Guest of Honour: <b>Prof. Sudeep Gupta</b> , Director, Tata		
	Memorial Centre		
10:30-11:00	Address by Chief Guest: <b>Prof. P. Balaram</b> , Senior Visiting Professor, NCBS and Former Director, IISc, Bengaluru		
10.50-11.00	Title: Redox Biochemistry Before and After Oxygen		
11.00.11.05	Vote of Thanks: <b>Dr. Nakul C. Maiti</b> , Chief Scientist & Secretary, ICRB-		
11:00-11:05	IHD 2025		
11:05-11:30	High Tea		
Session 1	Cancer Signaling, Tumor Resistance & Therapeutics		
	(KL: 40 min & IL: 25 min each)		
*** 4 11 20 12 10	(Chairperson: Dr. Chandrima Shaha & Dr. Mrinal Kanti Ghosh)		
<b>KL-1</b> 11:30-12:10	Prof. Sudeep Gupta, Tata Memorial Centre, Mumbai Title: Clinical and translational research in breast and gynecological		
	cancers		
<b>IL-1</b> 12:10-12:35	Prof. Ajay Singh, University of Mississippi Medical Center, USA		
	<b>Title:</b> Rewiring the hypoxia response: A novel role for MYB in pancreatic		
	cancer		
<b>IL-2</b> 12:35-13:00	Prof. Rana P. Singh, Gautam Buddha University, Greater Noida		
	<b>Title:</b> Radiosensitization mechanisms of phytochemicals and their role in		
	DNA damage response		
13:00-15:00 Lunch & Poster presentation (P-1 to P-40)			
Session 2	Radiation Biology & Oncology		
	(KL: 40 min & IL: 25 min each)		
	(Chairperson: Dr. Vijay K. Kutala & Dr. Debabrata Biswas)		
<b>KL-2</b> 14:30-15:10	<b>Prof. Avinash C. Pandey</b> , Inter-University Accelerator Centre, New Delhi		
	<b>Title:</b> Heavy ion irradiation-based radiation biology research at IUAC:		
IL-3 15:10-15:35	Addressing the challenges from space missions to agriculture <b>Dr. Pritha Ray,</b> ACTREC–TMC, Mumbai		
11.10-13.33	<b>Title:</b> Therapeutic implications of distinct and differential modulation of		
	oncogenic signalling pathways by mutants of p53 in chemoresistant ovarian		
	and gastric cancer		
<b>IL-4</b> 15:35-16:00	Prof. Manoj K. Pandey, Cooper Medical School of Rowan University,		
	USA		
	Title: Targeting redox metabolism in multiple myeloma: Pan-ALDH		

		Inhibition to overcome stem-like cell-driven relapse
IL-5	16:00-16:25	Dr. Sheetal Uppal, BARC, Mumbai
		<b>Title:</b> Switching the gene code: BRD4 degradation unlocks
		radiosensitization through alternative splicing in breast cancer
_	5:25-16:45	Tea/Coffee break
S	ession 3	Oxidative Stress in Development and Disease
		(25 min each)
IL-6	16:45-17:10	(Chairperson: Dr. Kausthabh Maiti & Dr. Apurba K. Sau)
1L-0	10.43-17.10	Prof. Amit Singh, IISc, Bengaluru  Title: Bioenergetic crosstalk between host and pathogen mediates drug
		tolerance in Mycobacterium tuberculosis
IL-7	17:10-17:35	Prof. Suvro Chatterjee, University of Burdwan
IL-7	17.10 17.33	<b>Title:</b> Dietary nitric oxide shields embryonic development from teratogenic
		assaults
IL-8	17:35-18:00	Dr. Ellora Sen, BRIC-NBRC, Manesar
		Title: Redox landscape affects chemosensitivity: Lessons learnt for IDH
		mutant Glioblastoma
IL-9	18:00-18:25	Dr. Piyali Mukherjee, Presidency University, Kolkata
		Title: ROS-PARP1 axis orchestrates HMGB1 nuclear exit and subsequent
		G2/M arrest in rotenone-induced neurotoxic stress
AGM*	18:00-19:00	*Annual General Meeting of SFRR-India from 18:00 to 19:00 in the
SFRR		Director's conference room, CSIR-IICB
19:	00 onwards	Dinner
		Day-2, December 04, 2025 (Thursday)
Se	ession 4	Redox-Mediated Epigenetic Regulation in Development and Disease
		(KL: 40 min & IL: 25 min each)
171 0	00 20 10 10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)
KL-3	09:30-10:10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA
KL-3	09:30-10:10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian
		(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos
KL-3	09:30-10:10 10:10-10:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal
		(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in
IL-10	10:10-10:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer
		(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi
IL-10	10:10-10:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as
IL-10 IL-11	10:10-10:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi
IL-10 IL-11	10:10-10:35 10:35-11:00	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break Redox Stress, Immunotherapeutics and Inflammation
IL-10 IL-11	10:10-10:35 10:35-11:00 :00-11:20	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each)
IL-10 IL-11	10:10-10:35 10:35-11:00 :00-11:20 Gession-5	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi) Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)
IL-10 IL-11	10:10-10:35 10:35-11:00 :00-11:20	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh) Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA
IL-10 IL-11	10:10-10:35 10:35-11:00 :00-11:20 Gession-5	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh) Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two
IL-10 IL-11 II II II II II II II	10:10-10:35 10:35-11:00 :00-11:20 dession-5	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh) Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology
IL-10 IL-11	10:10-10:35 10:35-11:00 :00-11:20 Gession-5	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi
IL-10 IL-11 IL-11 S IL-13	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh) Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation
IL-10 IL-11 II II II II II II II	10:10-10:35 10:35-11:00 :00-11:20 dession-5	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata
IL-10 IL-11 IL-11 S IL-13	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata Title: S1P—S1PR1 Axis Drives CD8+ T Cell Dysfunction in the Tumor
IL-10 IL-11 IL-12 IL-13 IL-14	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10 12:10-12:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata Title: S1P-S1PR1 Axis Drives CD8+ T Cell Dysfunction in the Tumor Microenvironment
IL-10 IL-11 IL-11 S IL-13	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata Title: S1P-S1PR1 Axis Drives CD8+ T Cell Dysfunction in the Tumor Microenvironment Dr. Sachin Kumar, CSIR-CDRI, Lucknow
IL-10 IL-11 IL-12 IL-13 IL-14	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10 12:10-12:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata Title: S1P—S1PR1 Axis Drives CD8+ T Cell Dysfunction in the Tumor Microenvironment Dr. Sachin Kumar, CSIR-CDRI, Lucknow Title: Nitric Oxide- Redox Signalling in Hematopoiesis and BM
IL-10 IL-11 IL-12 IL-13 IL-14 IL-15	10:10-10:35 10:35-11:00 :00-11:20 dession-5 11:20-11:45 11:45-12:10 12:10-12:35	(Chairperson: Dr. Sib Sankar Roy & Dr. Rupesh Chaturvedi)  Prof. Utpal Banerjee, UCLA, USA Title: Metabolism drives pre-implantation development in mammalian embryos  Prof. Sanjeev Shukla, IISER Bhopal Title: A hypoxia-induced epigenetic-splicing axis promotes invasion in breast cancer Dr. Vijay P. S. Rawat, JNU, New Delhi Title: Remodeling the epigenetic landscape: TET DNA demethylases as drivers of cancer and promising therapeutic targets  Tea/Coffee break  Redox Stress, Immunotherapeutics and Inflammation (25 min each) (Chairperson: Dr. K.M. Ramkumar & Dr. Umesh Prasad Singh)  Prof. Mansoor Ahmed, Albert Einstein College of Medicine, NY, USA Title: Redox stress and spatially fractionated radiotherapy: Synergizing two emerging paradigms in radiation oncology  Prof. Md. Zahid Ashraf, JMI, New Delhi Title: Platelet-Monocytes Crosstalk Orchestrate Thrombo inflammation Dr. Shilpak Chatterjee, CSIR-IICB, Kolkata Title: S1P-S1PR1 Axis Drives CD8+ T Cell Dysfunction in the Tumor Microenvironment Dr. Sachin Kumar, CSIR-CDRI, Lucknow

	Se	ession 6	Mitochondrial		Control and Disease Biology		
			(25 min each)				
					Oruganti & Dr. Joy Chakraborty)		
	IL-16	14:30-14:55			rsity of Kansas Cancer Centre, USA		
		<b>Title:</b> Mitochondrial fate and metabolism in radiosensitivity of tissue stem					
	TT 15	14.55 15.20	cells				
	IL-17	14:55-15:20		Prof. Oishee Chakrabarti, SINP, Kolkata Title: Mitochondrial shape and size defines its function			
	IL-18	15:20-15:45					
	IL-10	13.20-13.43	Dr. Rahul Checker, BARC, Mumbai  Titles Mitschoodried BOS driven protectories stress; uncovering LOND1				
			<b>Title:</b> Mitochondrial ROS–driven proteotoxic stress: uncovering LONP1 and CLPP as vulnerabilities in Triple-Negative breast cancer				
	IL-19	15:45-16:10	Prof. Jagneshwar Dandapat, Utkal University, Bhubaneswar				
	1117	13.13 10.10	<b>Title:</b> Redox immune epigenetic triad in PTU-induced hypothyroid rat: An				
			integrated biological loop crucial for health and disease				
	IL-20	16:10-16:35					
	111 20	10.10 10.33	6:35 <b>Prof. Biswanath Maity,</b> Bose Institute, Kolkata <b>Title:</b> G protein regulators: Integrator of redox-sensitive cellular responses				
impacting vital organ com							
	16:35-17:00 Tea/Coffee Break						
	Parallel Session: 7A & 7B						
			17:00 -	18:30			
			ion: 7A		Session: 7B		
	You		r Award Presentations		Oral Presentations		
	_	· ·	nin each)		(15 min each)		
			or Seminar Room	(C)	Venue: Dr. J.C. Ray Auditorium		
			ehasikta Swarnakar, Dr.	(C	hairperson: Dr. Tanaya Bose and Dr.		
	i.	Sanjit Dey & D	r. Sourish Ghosh)		Syamal Roy) <b>Dr. Anup Majumdar,</b> BRIC–NIBMG,		
		T. T. 11	1.171		Kalyani		
			d Khan, IIT Kanpur		<b>Title:</b> Dynamic interaction of MYC		
	YIA-1		1 potentiates colorectal ession and chemoresistance	OP-1	enhancer RNA with YEATS2 protein		
			sphingolipid biosynthesis		regulates MYC gene transcription in		
	by perturb		spiningoripid biosynthesis		pancreatic cancer		
		Leena Saini,	JNU, New Delhi		•		
		Title: Tumor-	-suppressive role of MUC7		<b>Dr. Ananthalakshmy Sundararaman,</b> BRIC-RGCB, Thiruvananthapuram		
	YIA-2		namous cell carcinoma:	OP-2	Title: Beyond quality control: Emerging		
	117-2		mesenchymal-to-epithelial	01-2	roles of mitochondria-derived vesicles		
		transition ar	nd enhanced therapeutic		in the heart		
		response			in the near		
		Raviranjan l	Pandey, IISER, Kolkata		Dr. R. S. Patwardhan, BARC, Mumbai		
		Title: Devel	oping and characterising		Title: Precision oncology in lung		
	YIA-3	novel small m	nolecules for the therapy of	OP-3	cancer: Progress and promise of Nrf2		
			ase: Addressing Copper		targeted therapeutics		
		Overload and	Redox Imbalance				
		Ariiit Nandy	, CSIR-IICB, Kolkata		Dr. Ashutosh Shrivastava, King		
			ic partitioning of a critical		George's Medical University, Lucknow		
	T7T 1 4		ctor between SEC and LEC	OD 4	Title: Mitochondrial metabolic		
	YIA-4		lular mRNA and snRNA	OP-4	reprogramming and NRF2/KEAP1-		
			in a context dependent		regulated antioxidant pathways drive Temozolomide resistance in		
		manner	1		Glioblastoma Multiforme		
					Onoonastonia matthornic		

YIA-5 YIA-6	Title: RNASEH1-associated splicing programs define prognostic signatures in breast and uterine cancers  Yukta S., SRM Institute of Science and Technology, Kattankulathur Title: Bisphenol-A-induced endothelial dysfunction mediated by oxidative stress-driven ferroptosis and Nrf2 inhibition  Suman Mandal, IACS, Kolkata Title: Piezoelectric stimulation of cellular redox pathways: A bridge between materials and mitochondrial biology  Dr. Janaki Ramaiah M, VIT, Vellore Studies on DPP IV inhibitor mediated anticancer effects in PDAC cancer via in vitro and network pharmacology  Prof. Rambir Singh, Mizoram University, Aizawl  Title: Morphological, phytochemical, antioxidant, and antiproliferative studies on Paris polyphylla collected from Mizoram and Arunachal Pradesh			
19:00 onwards Banquet Dinner				
Day -3, December 05, 2025 (Friday)				
Se	ession 8	AI/ML in Redox Biology & Medicine (25 min each)		
		(Chairperson: Dr. Sucheta Tripathy & Dr. Manish Debnath)		
IL-21	09:30-09:55	Prof. Pralay Mitra, IIT Kharagpur		
IL-22	09:55-10:20	Title: Accelerated Artificial Intelligence in neoepitope discovery Prof. U. Deva Priyakumar, IIIT Hyderabad		
1122	07.55-10.20	Title: Generative AI/ML methods for drug discovery		
IL-23	10:20-10:45	Prof. Debarka Sengupta, IIIT-Delhi		
10	45 11 00	Title: New breed AI and agents in drug discovery		
	.45-11.00 ession 9	Tea/Coffee Break Radiation biology and Molecules in Diagnostics & Therapeutics		
	,55,2012	(KL: 40 min & IL: 25 min each)		
	11.00.11.10	(Chairperson: Dr. P. Jaisankar & Dr. Arindam Talukdar)		
KL-4	11:00-11.40	<b>Prof. Govindasamy Mugesh,</b> IISc, Bengaluru <b>Title:</b> Redox biology vs oxidative stress: Catalytic nanomaterials and small		
		molecule strategies for cellular homeostasis		
IL-24	11:40-12:05	Prof. Harinath Chakrapani, IISER Pune		
11. 25	12.05 12.20	Title: Leveraging tandem biocatalysis to promote antioxidant response		
IL-25	12:05-12:30	Prof. Amit Majumdar, IACS, Kolkata Title: Nitric oxide and S-/N- "Crosstalk" species		
IL-26	12:30-12:55	Dr. Biswadip Banerji, CSIR-IICB, Kolkata		
		<b>Title:</b> New hybrid molecules as potent PARP-1 inhibitors targeting Glioma		
		through DNA damage & ROS generation  Lunch & Poster presentation (P-81 to P-120)		
13	:00-14.30	Lunch & Poster presentation (1-01 to 1-120)		
Se	ssion 10	Redox Stress, Signaling & Resistance		
		(25 min each) (Chairperson: Dr. Sukhes Mukherjee & Dr. Sharmila Chattopadhyay)		
IL-27	14:30–14:55	Prof. Suhel Parvez, Jamia Hamdard, New Delhi		
		Title: Wnt receptor agonist enhances neuroprotection by ameliorating		
		mitochondrial dysfunction in ischemic reperfusion injury via CaMK signaling		
IL-28	14:55-15:20	Dr. Vikram Saini, AIIMS, New Delhi		
		Title: Nutritional modulation of redox and metabolic pathways as a broad-		

	spectrum strategy for enhancing host defense
<b>IL-29</b> 15:20-15:45	Dr. Dipanjan Ghosh, NIPER, Kolkata
	<b>Title:</b> Exploring the anti-oxidant properties of beta Glucogallin against
	arsenic-induced neurotoxicity: Mechanistic insights into autophagy and
	long noncoding RNAs
<b>IL-30</b> 15:45-16:10	Dr. Amit K. Srivastava, CSIR-IICB, Kolkata
