☎9681142646

Dr. K. Chattopadhyay  
CSIR-IICB  
Kolkata 700 032  
☎9903046826

Dear Sir/Madam,

You may be aware that every year we organize a meeting of neuro-academicians, neuro-clinicians and basic neuroscientists under the umbrella of NeuroUpdate. The Twelvth NeuroUpdate is tentatively scheduled for November 28-29, 2020. Due to the present pandemic worldwide, we have decided to hold the entire programme using a suitable online platform.

We aim to bring to a single platform both basic neurobiologists and clinicians, to foster interactions amongst them so as to derive maximum benefit to neuroscience research with relevance to patient care. We expect this meeting will generate newer information and create initiatives for providing affordable healthcare strategies for the coming days. This year the seminar on November 28 shall be on the ***Covid-19 and its impact of on Neurological manifestations*** while that on November 29 shall be focused on the ***Recent advances on research and treatment of Neurodegenerative diseases***. As per practice we shall have a competitive session to hear the deliberations from young talents.

Your participation and active support is solicited. We welcome all suggestions that may fulfill the purpose of NeuroUpdate.

The details of the programme, the links for registration and the online platform shall be announced soon.

Thanking you,

Yours sincerely,

*Subhas C. Biswas*  
(Dr. Subhas C. Biswas)  
Organizing Secretary

*P.K. Ganguly*  
(Prof. P. K. Gangopadhyay)  
President
